Experience

Frontend Developer Intern | Frontend Simplified　　　　　　　　　　**July 2024 - Present**
• Enhanced static SPA with animations, transitions, and carousels using HTML, CSS, JavaScript, and React
• Implemented API requests via Axios, featuring skeleton loading, pagination, and dynamic routing
• Collaborated using Git and GitHub in a virtual team environment

Freelance Frontend Developer | Self-Employed　　　　　　　　　　**June 2024 - Present**
• Developed professional websites using HTML5, CSS3 (SCSS, BEM), JavaScript, and React
• Optimized performance through image compression, caching, and lazy loading
• Provided SEO, responsive design, and multi-platform support
• Worked closely with clients on requirements, wireframes, and custom features

Frontend Developer Support | Frontend Simplified　　　　　　　　　　**May 2024 - Present**
• Mentored students in HTML, CSS, JavaScript, and React best practices
• Utilized Chrome and Edge developer tools for debugging
• Explained complex concepts: responsive design, API requests, React hooks

Software Engineer Intern | Vibrant Dynamics, Washington, D.C.　　　　　　**June 2023 - June 2024**
• Developed cross-platform mobile apps (iOS, Android, Windows), reducing development time by 15%
• Optimized SEO, increasing organic traffic by 20%
• Enhanced website performance, improving load times and conversion rates
• Executed social media strategies, boosting brand awareness and engagement by 25%

Education

Frontend Developer Bootcamp　　　　　　　　　　**May 2024 - October 2024**
Frontend Simplified

Bachelor of Science in Information Systems　　　　　　　　　　**Graduation: Fall 2024**
University of Maryland, Baltimore County, Baltimore, MD

Associate of Arts in Computer Science　　　　　　　　　　**Graduated: Winter 2019**
Montgomery College, Rockville, MD

Projects

Google Gemini Clone | React, Vite, Tailwind CSS, AI-API-Key
• Replicated Gemini website using React components and hooks for dynamic rendering
• Utilized Vite for optimized development workflow and build processes
• Implemented responsive design with Tailwind CSS, ensuring cross-device compatibility

Bike Shop Website | HTML, CSS, JavaScript, React
• Created e-commerce platform with custom search engine
• Implemented dynamic product filtering using JSON data and JavaScript
• Optimized search functionality for real-time product comparison

Pokémon Card Search | React, HTML, CSS, JavaScript
• Developed responsive web app for searching Pokémon TCG cards with multiple filters
• Utilized React hooks, components, and routes for seamless multi-page experience
• Implemented state management for real-time data retrieval
• Optimized performance through lazy loading and efficient rendering techniques
